**Attention:** - Regarding A “False Flag Terrorist Attack” which happened 22 years ago.

**Subject:** Correcting the past!

Dear Paul, Hugh & Tim,

Senior Management and fellow staff there at your offices, today I am writing to you and ask for your help with exposing something which happened in the past 22 years ago now.

The true story has to be told people, the Australian people deserve to know the truth of what happened, with that said I will begin and tell you the story as it has been researched – studied and investigated by many.

Well-known people like Steward K Beattie, Andrew S Macgregor, Carl Wernerhoff, Joe Vialls and our very own Lloyd T Vance from The OzBoy Files.

With that said lets begin 22 years ago High up people within The Federal Government and Tasmanian Government carried out a “False Flag Terrorist Attack” upon the people of Tasmania and visitors there at the time and also the Australian people at large.

Think about that for a minute gentlemen!

That means against you Paul Anderson, and you Hugh Marks and you Tim Worner, if that doesn't make your blood boil that these Governments would dare carry out a "False Flag Terrorist Attack" against your fellow Australian citizens.

Then I am sorry to say you must not be human with any feeling about you as a person.

Have any of you gentlemen studied "False Flag Terrorism" carried out by Government around the World using their own Police – Military or Intelligence Agencies who carry out these peoples orders.

Then please see enclose something I wrote a few years ago that tries to educate people all about the subject.

Admitted Fact

If after reading this information proof and evidence, you still want to bury your heads in the sand and say no such thing exist then so be it I cant help you, its sorta like something everybody has to get their heads around and come to admit to themselves yes, this stuff really does happen in society today.

And no it's not "Tin Foil" – Waco Stuff – All lies told by Conspiracy Theorist it really does happen.

So back to our story there were three (3) lots of people involved in these attacks that took place.

- 1) ASIO – Australian Security and Intelligence Organization there job was to have agents also others who have been named and expose as being ASIO crisis actors, ready to greet the Mainstream Media after the Massacre occurred, on the Isle Of The Dead.

They had their people within The Broad Arrow Café` at the time and some were killed and wounded along with other members of the general public.

The original plan was the Real Gunman catch a Ferry over to The Isle of The Dead and shoot as many people as possible, from research I think Ex – President Bill Clinton was visiting Australia at the time, he was going to use this attack upon his own people that were there at the time American visitors as a tool to ram through more tougher gun controls at home in America.

The original plan went belly up because the Handler for the real gunman forget to check the Ferry time table which had been changed because of day light saving, so he missed the Ferry and either by his own decision or by his handler then went to the Café` not knowing ASIO was also taking part in this “False Flag Attack” and open fired on them all there.

- 2) The second lot of people involved from research – study and investigations were Australian Military (SAS) they supplied the two shooters at the time.
- 3) The third lot of people involved were Tasmania Police their job was to manage the patsy who had been chosen to be set up for these attacks and set him up as the crazy lone gunman.

Please see enclosed the following to read over this proves they were running a drill of some sorts at the same time, place as this Massacre was occurring that day.

It's impossibility --- coincidence cannot be explained away for all these things to take place at the same time.

- 23 Coincidences, Which the Media and Officials Can't Explain.
- 15 FACTS ABOUT PORT ARTHUR YOU NEED TO KNOW.

- 4) There is a fourth to this whole sorrifull story and its this Martin Bryant denied to his mother he was ever at Port Arthur & The Café`.

In the Police Interview he also denied being at Port Arthur & The Café`.

I should also note he was banned from the Café` because he use to annoy the customers, so who ever the counter staff served that day it certainly wasn't Martin Bryant.

While I am on the Café` the real gunman brought a can of drink and some food, there was NEVER any DNA or fingers taken from the can of drink or the tray leading back to Martin Bryant.

He held out for 3 months denying he was involved in any way shape or form, The Tasmanian Police and Government ordered he be locked up in solitary confinement, he was drugged up to the eye balls, tortured and threaten by his mother, sister and corrupt lawyer to change his plead to guilty which he eventually gave in.

What they did to this guy was totally illegal and unjust to have anybody go through all that, but they did it to him a poor guy with an IQ of 66, and mentally 11-12 years of age in the lower percentage of people suffering from aspbergers of form of Autism, which he was confirmed to have.

So there is the story, which I am hereby challenging you and all your News & Current Affairs teams to expose.

Not the silly non-sense they all copied off the trashy – Murdoch Press and News Ltd and just parroted what they said.

Lastly please see the next 4 letters enclosed I am sending away asking Officially for answers, seen you people in the Mainstream Media wont do your job properly and investigate and tell the truth about The Port Arthur Massacre.

I find it incumbent upon me to try and shake the apple tree and see what falls out of it.

I realize I am putting my own safety and life at risk but somebody – somewhere has to do something to expose this whole “False Flag Terrorist Attack” upon our shores.

The question now is how many of you in the Mainstream Media have the guts – balls to stand by me and help me expose all this that happened 22 years ago.

And finally bring to justice before the Courts some of the real perpetrators behind The Port Arthur Massacre.

Yours truly
